CORE COMPETENCIES

Authority in matters relating to international and domestic space law, space policy and national security. Provides objective insight for these matters and provides independent perspective for law and policy makers when considering the dynamics of the geopolitical and geolegal arena and the use of international law to influence outer space activities.

PAST PERFORMANCE

The activities of Space Law and Policy Solutions, including those in the past, involve contractual commitments under non-disclosure agreements (NDA), which continue after the work was completed or are otherwise protected by attorney/client privilege. It is this commitment to confidentiality Space Law and Policy Solutions gives to its past, present and future clients.

DIFFERENTIATORS

- Perspective of a non-government attorney to analyze and offer solutions to issues in space law and policy and actions in the geopolitical and geolegal environment that affect national security and commercial interests.
- Low-bono rates for government clients.
